

# Level Set® Wear Topping

**High strength, self-leveling wear surface  
ideal for commercial applications**

Formulated based on contractor feedback.

- **Easier application**
  - Barrel mix or pump from 1/4" to 2" in one lift
  - Seamless merging with every pour
- **Great looking finished surface**
  - Smoother surface
  - Lighter gray for more vibrant staining and coloring.
- **Quick return to service**
  - Accepts foot traffic in 2 to 3 hours and rubber wheel traffic in 48 hours
  - Seal the next day
- **Strength, durability and quality you can count on**
  - High compressive strength – 6,000 psi
